SUBJECT.

**REVIEW OF THE REPORT ON THE ADMINISTRATION OF JAILS FOR
THE YEAR 1326 FASLI.**

OBSERVATIONS :—

Mr. A. C. Hankin, C. S. I., C. I. E., was in charge of the Department throughout the year, except for the last month and ten days when he was on long leave owing to illness. Mr. W. A. Gayer, who submits this report, was appointed to officiate for him.

2. Mr. Hankin visited four Central and four District Jails, and Mr. Gayer inspected two Central and two District Jails during his tours as Deputy Director-General and one Central and one District Jail when officiating as Director-General. Other officers of the Police Department also inspected some Jails.

3. Mr. Gayer complains that reports from Karimnagar, Nander, Adilabad and Bir districts were received without remarks and unsigned by the First Talukdars, the report from Bir being much overdue and thus delaying the compilation of the general statements appended to the Director-General's report. The First Talukdars, as Nazims, should take greater interest in Jails and Government hope that they will not give the Director-General cause for complaint in the future.

4. Another complaint is that the preachers from the Nadwat-ul-Muslimin delivered only four lectures to prisoners in the Hyderabad Central Jail, as against 15 in 1325 and 37 in 1324. The attention of the Director-General is invited to the remarks in the previous year's review, and as he is convinced of the utility of these lectures he should, in consultation with the executive of the society, submit proposals to Government for more systematic and regular religious instruction to the Moslem convicts. Government is in correspondence with a philanthropic Hindu agency, for taking up similar work on behalf of the Hindu convicts.

5. In accordance with Mr. Hankin's proposals, arrangements have been made for education of adult convicts in the Central jails, and classes have already been opened with teachers from the Educational Department. Government will be glad to consider proposals regarding the enhancement of teachers' salaries, if qualified men are not available on the salaries sanctioned.

6. The total number of convicts admitted into the jails was 3,596, as against 3,273 in 1325 Fasli, and there were 6,029 under trial prisoners as against 6,408 in the previous year, the average daily strength of the two classes being 2,199 and 1,051 as compared with the previous year's figures of 2,116 and 1,052 respectively. The percentage of Hindu convicts has increased from 42.8 per cent. to 63.9 per cent., but this is due to the fact that Wadders, Dhers and Mangs and other lower castes have been classified as Hindus, following the Census Report. There has been a decrease in the number of Muslim convicts from 17.1 per cent. to 14.5 per cent.

There were 32 Juvenile convicts, but only two of them could be sent to the Reformatory Schools. The time has come for the High Court to take the matter in hand, and direct the subordinate Magistrates to put the wholesome provisions of the Reformatory Schools Act into operation. The number of female convicts was 146, as against 142, out of which 139 were convicted of offences against property.

The number of convicts discharged was 3,559, as against 3,260 in 1325, of whom one paid the extreme penalty of the law, 412 were released by the special commands of His Exalted Highness, 402 were liberated under the mark system and the rest for other reasons.

7. In dealing with the length and nature of sentences it is stated that 807 prisoners were sentenced to simple and 2,788 to rigorous imprisonment, and that 32.6 per cent. were awarded sentences not exceeding one month and only 5.2 per cent., to over two years. Previous convictions were traced against 501 offenders, but the Courts still persist in sentencing habitual offenders with 5 or 6 convictions to terms not exceeding 2 or 3 weeks, which, in the words of the Director-General, is futile in the last degree.

8. It is satisfactory to note that in spite of a slightly increased jail population offences by convicts fell from 404 to 311, but it is to be regretted that cases in which corporal punishment had to be resorted to increased from 48 to 59. It is also satisfactory to note that both convict officers and members of the Barkhandaz force have been much better behaved than in the past, and punishments in the case of the latter have decreased from 250 to 162 and dismissals from 60 to 19.

9. The number of under trial prisoners is again increasing: there were 1,019 awaiting their trial in the beginning of the year, as against 922 in the beginning of 1325 Fasli.

10. There were 16 escapes from jails during the year, 6 from interiors and 10 from extra mural duty. One life convict effected a daring escape from the Hyderabad Central Jail through the carelessness of the subordinate officers, who have been severely punished for their slackness.

11. As the Hyderabad Central Jail Press has been entirely re-organized and placed under a wholtime Superintendent, the Director-General has separated its accounts from those of the Jail Department generally. The total gross expenditure on the Jail Department in the Dominions was Rs. 5,89,286 or Rs. 42,024 more than in the previous year. The increase seems to be due very largely to the prevailing high prices and temporary suspensions of certain items of income. The net expenditure after deducting the cash earnings which amounted to Rs. 2,54,490, was Rs. 3,34,795 as against Rs. 3,12,700 in 1325 Fasli. The gross expenditure per head was Rs. 181, as against Rs. 172, and the net expenditure, after deducting cash earnings, was Rs. 108 as against Rs. 98, the increase being due mostly to high prices and some unforeseen expenditure under various heads. The dieting charges per head were practically the same as in the previous year, *viz.*, Rs. 41-15-0 as against Rs. 41-5-0, which the Director-General thinks was due to the judicious purchase of grain in advance. The amount realised from the sale of the produce of jail gardens was Rs. 9,844, as against Rs. 8,799.

12. The Hyderabad Jail Press was re-organised on an extensive scale with the expert advice of Mr. T. Fisher, Superintendent, Government Printing, Madras, and Mr. R. V. Pillai, a practical printer of considerable experience was appointed as Superintendent. The Press showed a profit of Rs. 5,948 during the year. The presses in other jails had a total income of Rs. 12,868 and the expenditure was Rs. 10,284 leaving a small profit of Rs. 2,083.

13. The total number of deaths was 44, or 13.5 as against 15.1 per mille, in spite of an increased jail population and an extremely unhealthy year. There were no cases of plague in any of the jails.

14. The Lunatic Asylum had 226 inmates at the beginning of the year and 79 were admitted subsequently making a total of 305 (249 males and 56 females), of whom 53 were cured and discharged, 8 were removed by their relatives before a permanent cure could be effected and 14 died, leaving 230 inmates in the Asylum at the close of the year. The drug habit, intemperance and epilepsy all helped to fill the Asylum. The total expenditure on the institution was Rs. 18,820 or Rs. 82 per head.

15. The Jalna Reformatory seems to be becoming merely an adornment for the landscape : magistrates have failed entirely to utilise its benefits, for during the year only 2 juvenile convicts were sent to the Reformatory. This is a regrettable state of affairs. The Leper Asylum at Jalna has ceased to exist and inmates have been transferred to Mr. Kerr's Asylum at Dichpalli.

16. His Exalted Highness' Government are pleased to express their appreciation of Mr. Hankin's efficient administration of the Department.

(By Order),

A. HYDARI,

SECRETARY TO GOVERNMENT,

Judicial, Police and General Departments.

FROM

W. A. GAYER, Esq.,

OFFG. DIRECTOR-GENERAL OF JAILS,

H. E. H. The Nizam's Dominions,

Hyderabad.

TO

M. A. N. A. HYDARI, Esq., B. A.,

SECRETARY TO GOVERNMENT,

JUDICIAL, POLICE AND GENERAL DEPARTMENTS,

Hyderabad.

*Dated, Hyderabad, 6th February 1918.
5th Farwardi 1327 F.*

SIR,

I have the honour to submit the Administration Report of the Jail Department for the year 1326 Fasli. Mr. Hankin was in charge of the Department throughout the year with the exception of the last month and 10 days when, owing to illness, he took leave and I officiated for him. Continued illness has obliged him to go to England on 6 months' leave, and in his absence I am submitting this report.

2. The number of Jails remained the same as last year.

3. Eighty-two prisoners from Paigah Illaquas, 54 convicts and 28 under-trials, as against 55 in the previous year were received in the Central Jails.

4. Four Central Jails and four District Jails were inspected by Mr. Hankin prior to his proceeding on leave. I inspected two Central Jails and two District Jails during my tour as Deputy Director General, and one Central Jail and one District Jail when Officiating Director General. Mr. Vilayet Hussain and Mr. Muhammad Younus each inspected one Central and two District Jails.

Mr. Yousuf Hussain visited the Hyderabad Jail once, and Mr. Galloway three times during the year, besides several visits by Mr. Hankin and myself.

5. The reports from the Karimnagar, Nander, Adilabad and Bir districts were received without remarks and unsigned by the First Talukdars. The First Talukdars as Nazims of the District Jails are supposed to exercise some supervision over and take interest in the Jails, and it is not too much to expect that they should at least affix their signatures to the annual reports of the Jails in their charge. The report from the Bir district was received very late in my office. It was full of mistakes and had to be returned three times before the requisite data was correctly furnished. It did not reach my office till the 2nd of Isfandar, and delayed the preparation of the general statements in consequence.

6. There has been a regrettable decrease in the number of lectures on moral and religious subjects delivered to the prisoners in the Hyderabad Central Jail by preachers from the Nudwatul Muslimin Society. In 1324 Fasli when this arrangement was first started 37 lectures were given: this year only 4 were given. Government have recently sanctioned rules for preachers, and it is hoped the District Jails will also be visited by them, and that the prisoners will benefit.

7. The proposal which was sent up to Government for the appointment of whole-time teachers in the Central Jails has been sanctioned, and a teacher on Rs. 15 to 18 has been appointed in each of the 5 Central Jails. Regular classes have now been opened. Detailed rules providing for the curricula and supervision by educational authorities have been submitted to Government and are awaiting sanction. Efforts have been made to obtain trained Vernacular teachers through the Director of Public Instruction, but the pay is not sufficiently attractive to induce good men to give their services.

PART I.

JUDICIAL STATISTICS.

The table below gives the number of convicts and under-trials dealt with during the year as compared with the previous year:—

Details	1925 Fasli			1926 Fasli		
	Males	Females	Total	Males	Females	Total
(1) Remaining on 1st Azar.						
Convicts	2,238	61	2,294	2,210	67	2,307
Under-trials	910	12	922	992	27	1,019
Total	3,148	73	3,216	3,282	94	3,326
(2) Received during the year exclusive of transfers.						
Convicts	3,131	142	3,278	3,450	146	3,596
Under-trials	6,173	285	6,408	5,755	274	6,029
Total	9,304	377	9,681	9,205	420	9,625
Total Convicts 1 & 2	5,364	208	5,567	5,690	213	5,903
Total under-trials 1 & 2	7,083	247	7,380	6,717	301	7,048
Grand Total	12,447	450	12,897	12,437	514	12,951
(3) Discharged from all causes.						
Convicts	3,124	186	3,260	3,402	187	3,559
Under-trials	6,091	220	6,311	5,990	288	6,282
Total	9,215	356	9,571	9,101	440	9,841
(4) Remaining on 30th Aban.						
Convicts	2,240	67	2,307	2,288	56	2,344
Under-trials	992	27	1,019	748	18	766
Total	3,232	94	3,326	3,086	74	3,110
(5) Average number during the year.						
Convicts	2,061	55	2,116	2,140	59	2,199
Under-trials	1,080	22	1,052	1,008	48	1,051
Total	3,091	77	3,168	3,148	102	3,250

The total admissions to Jails during the year show a slight falling off from 9,681 to 9,625. While, however, the admissions of under-trials show a reduction of 379, the admissions of convicts have increased by 323, showing that convictions were secured in a greater number of cases than in the previous year. The total admissions have fallen by 56 and the total discharges have increased by 270: still the daily average strength of the

Jail population shows an increase of 82 over the figure for the preceding year. The increase in average population indicates a lengthening in the average sentence passed.

Seven prisoners in civil cases against 5 in the previous year were received in the Jails. All seven were released before the close of the year.

9. The year opened with 2,307 convicts (2,240 males and 67 females) against 2,294 convicts in the previous year: and 3,596 convicts (3,450 males and 146 females) were imprisoned during the year against 3,273 in the preceding year. The total number of convicts for disposal in the Jails was 5,903 against 5,567 last year. From all causes 3,559 convicts were discharged against 3,260 in the preceding year. The details of the discharges are:—2,360 released on expiry of sentences, 70 on appeal, 216 on bail pending appeal, 1 transferred to Lunatic Asylum, 50 on payment of fine, 412 by Special Commands of His Exalted Highness, 402 under the mark system, one released on medical grounds, one paid the extreme penalty of Law, 36 died and 10 escaped. Finally there remained at the close of the year 2,344 convicts against 2,199 in 1325 Fasli.

The proportion of convicts to the free population was 1 to 6,082 or 1·5 per 10,000: these figures are calculated on the daily average strength of the Jail population. Last year it was 1 to 6,320 or 1·6 per 10,000.

Religion of convicts admitted.

The classification according to religions, and comparison of 1325 and 1326 Fasli are as follows:—

	1325 F.		1326 F.	
	No.	Percentage.	No.	Percentage.
Hindus ...	1,400	42·8	2,297	63·9
Muhammadans...	561	17·1	521	14·5
Christians ..	8	0·2	6	0·1
Other classes	1,304	39·2	772	21·5

The increase in the number of Hindus is due to the adoption of the new classification as followed by the Census Report, which was desired by Government in their Review on last year's Report. Waddars, Dheers, Mangs and other lower castes, which were hitherto treated as criminal tribes and which provide the bulk of the criminals, have according to the new classification been included among the Hindus. The aboriginal tribes, Bhils, Gonds, etc. which were formerly treated among criminals are now included among other classes. According to this classification the proportion per 10,000 of the above to the religions professed by the free population is as follows:—

	1326 F.
Hindus	1·9
Muhammadans ..	3·7
Christians ...	1·1
Other classes	27·0

Admissions according to age.

The ages of convicts were:—

Under 16 years	36
Between 16 and 40 years	3,041
40 to 63 years	184
Above 60 years	35

The number of juveniles increased by two as compared with last year. Courts still fail to realise the immense harm that is done to children by sentencing them to less than 3 months and forcing their being associated with hardened criminals in jails. Short sentences debar them from admission to the Reformatory School and compel confinement in the jails of the district in which they are convicted and where no special arrangements exist for them. In a number of cases imprisonment for two or

three weeks was inflicted. Attention to this evil has been invited in the Reports of each year, but so far without any beneficial results. Out of the total number of 36 convicted criminally, only 2 juveniles could be sent to the Reformatory.

Only 127, or 3·5 per cent. of convicts admitted to Jail could read and write. Of the male convicts admitted into the Jails, 105 or 3 per cent. were Government servants; 242, or 7·0 per cent. private servants; 780, or 22·7 per cent. agriculturists; 137 or 4·0 per cent. petty traders; 63 or 1·8 per cent. skilled workmen; one was a pleader; and the remaining 2,123, or 61·5 per cent. belonged to the labouring classes or to criminal tribes.

The number of females imprisoned during the year was 146 against 142 last year. Two females were admitted on a charge of murder, 5 for attempt at suicide, and of the remaining 139 the majority were for offences against property. 128 of the females were married, 10 widows, and 8 unmarried of whom 7 were prostitutes.

10. Of the 3,596 convicts admitted during the year, 1,169 or 32·6 per cent. were awarded sentences not exceeding one month; 644, or 18·0 per cent. over one month but under three months; 761, or 21·2 per cent. over three months and under 6 months; 478, or 13·3 per cent. over 6 months and under one year; 287 or 8·0 per cent. over one year and under two years; 188 or 5·2 per cent. over two years and under five years; 53, or 1·4 per cent. over five years and under ten years; 15, or 0·3 per cent. over ten years including life sentences; and one was executed. 807 prisoners were sentenced to simple and 2,788 to rigorous imprisonment. Prisoners with terms of imprisonment not exceeding two years formed 93·1 per cent. of the total admissions and those exceeding 2 years only 6·9 per cent.

11. Prisoners with previous convictions against them numbered 501, as compared with 443 last year. There were a good many prisoners with 5 or 6 previous convictions against them sentenced to terms of imprisonment not exceeding two or three weeks. The award of such short sentences to habitual offenders is futile to the last degree.

12. With an increased daily population it is satisfactory to note a further decrease in the offences committed by prisoners, 311 against 404 in the preceding year. This is no doubt due to the maintenance of discipline and efficient supervision by the Jail staff. Only three prisoners as compared with 8 last year committed criminal offences for which they were prosecuted. The punishments awarded by Jail Superintendents were as under :—

Major.

Solitary confinement with penal diet	1
Corporal punishments	59
Solitary confinement	1
Other punishments	6
		<hr/> 67 <hr/>

Minor.

Formal warnings	51
Penal Diet	9
Fetters and handcuffs	26
Change to irksome labour	44
Confiscation of marks earned	40
Temporary reduction of grade	7
Forfeiture of rank and grade	64
		<hr/> 241 <hr/>

The average number of convict officials was 159 against 148 in the previous year, giving a percentage of 4·8 to the daily average strength. 40 against 93 last year were punished departmentally. It is creditable that not a single convict official in the Hyderabad Jail out of the 52 employed was punished during the year, but discounting this is the regrettable fact that though this Jail is the best protected, it is the only Central Jail from inside which a prisoner escaped.

13. There is a very satisfactory decrease in the number of punishments awarded to members of the Barkandaz Force, Statement No. 8. Conduct of the Barkandaz Force 162 against 250 last year. Almost the whole of this decrease is returned by the Hyderabad Jail which reported only 13 punishments against 114 in the preceding year. Mr. Mustahsan Khan is in charge and I trust is not over lenient. Mr. Ogilvie who followed Mr. Mustahsan Khan at Warangal has complained of great slackness prevailing there, the punishments from his Jail show an increase of 11. Dismissals in all Jails numbered only 19 against 60 last year.

14. At the beginning of the year, 1,019 prisoners were awaiting trial in comparison with 922 at the beginning of the previous year. The number of under-trials admitted during the year fell to 6,029, from 6,408 in the previous year, or by 379. Taking the prisoners at the commencement of the year and those admitted during the year there were 7,048 under-trials for disposal. Of these, 1,944 were convicted, 1,520 acquitted and 2,818 discharged or furnished bail or security, died, or escaped leaving a balance of 766 at the close of the year, the lowest on record for many years. The daily average number of under-trials during the year was 1,051 against 1,052 in the previous year.

15. There were 16 escapes from Jails during the year, against 20 in the previous year, 6 escapes were from inside and 10 from duty outside the walls.

	Convicts	Under-trials	From inside	From outside
Hyderabad	2	1	1
Nizamabad	4	2	6
Aurangabad	1	1
Karimnagar	...	1	1
Bider	2	2
Oosmanabad	...	1	1
Jalna Reformatory	1	1
Adilabad	1	1
Parbhani	1	1	..
	10	6	6	10

Six convicts and two under-trials were recaptured before the close of the year leaving 4 convicts and 4 under-trials at large, when the year closed. The convict who escaped from inside the Hyderabad Jail was a life convict. He secured a bamboo and a piece of rope from the weaving factory and scaled the wall just before dark. Two other convicts also attempted to escape with him but were prevented just in time from escape owing to the electric lights being in the meanwhile switched on. This escape reflected very badly on the jail administration. The prisoners were able to dig a hole through the wall of the weaving shed, extract a long and heavy bamboo, place it against a corner of the Jail wall, which should have been under full observation had it been daylight and had any one been on duty, and then with the help of a rope to get over the wall in spite of electric wires being there to prevent this. It must have been dark to allow all this to be done, and yet the lights were not on and the wire was dead. The Superintendent was not in the Jail at the moment, so escaped actual responsibility: the subordinates present were punished severely, but their slackness reflected badly on the discipline exacted of them by the Superintendent. Of the 6 prisoners who escaped from the Nizamabad Jail, 5

prisoners were recaptured during the year. The prisoners from Bider escaped by digging a hole through the kitchen roof. The escape from Adilabad was from a Tehsil Havalat where the prisoner was confined while under trial.

PART II.

FINANCIAL.

16. The Hyderabad Jail Press has been reorganized and expanded ^{Gross expenditure on} under the expert advice of Mr. Fisher of Madras. ^{Jails.} It is now practically a separate institution with a Superintendent of its own. The expenditure and income of the Jail Press has always been included in the total gross expenditure and income of the Jails, but now for clearness it seems advisable to discuss the Press figures separately altogether so as not to allow them to obscure the figures for the actual management of the Jails and the real cost to Government of the up-keep of prisoners.

Excluding therefore all expenditure on the Press during this year, and Rs. 53,630-6-4 expended on the Press last year and the cost of supporting the prisoners employed in the Press, the total gross expenditure on Jail Department during the year was Rs. 5,89,286-4-9 against Rs. 5,47,262-3-11, or an increase of Rs. 42,024-0-10. The details of expenditure under each head showing increase and decrease are given in Statement No. 13.

The net expenditure after deducting the cash earnings which amounted to Rs. 2,54,490-5-6 was Rs. 3,34,795-15-3 as compared with Rs. 3,12,700-14-8, or a net increase in expenditure of Rs. 22,095-0-7 as compared with last year. This increase in expenditure is due to a temporary suspension of receipt of income. Rs. 2,54,490-5-6 was recovered this year against Rs. 2,88,191-11-7 last year: this decrease is because Gurgabi shoes for the District Police though prepared at the Aurangabad Jail were not purchased during the year. The Jail had consequently in stock at the close of the year shoes of the value of Rs. 22,023 which will be sold in 1327 Fasli and the decrease will be compensated.

17. Calculated on the daily average strength including under-trials the ^{Gross and net expenditure} gross expenditure per head was Rs. 181-5-1 against ^{per head.} Rs. 172-11-11 last year. The net expenditure per head after deducting cash earnings was Rs. 103-0-2 against Rs. 98-11-3 last year. These increased figures are due to the higher daily average: the dearer cost of foodstuffs: the expenditure of Rs. 14,800 by the Gulburga Jail factories in excess of last year owing to an increased number of orders: the purchase of prison vans and bullocks from Mysore for conveying under-trial prisoners to Courts: the purchase of an oil-engine for the Aurangabad Jail: and the precautionary erection of sheds in case an out break of plague should necessitate the removal of prisoners from Jails.

The following table shows the net cash profits from the Jail Factories for the year under report:—

<i>Credit.</i>		
Cash balance in hand on 30th Aban 1326 Fasli	Rs. 992 11 1
Manufactured articles in stock on 30th Aban 1326 Fasli	...	„ 1,37,475 11 0
Raw materials in stock on 30th Aban 1326 Fasli	...	„ 94,675 7 2
Outstanding bills due to the Jails on 30th Aban 1326 Fasli	„ 10,018 11 2
Plant and machinery on 30th Aban 1326 Fasli	„ 1,09,645 9 6
Remittances made to Government Treasury during the year	...	„ 2,53,652 2 11
Amount due by Jails at the beginning of the year	...	„ 4,684 11 11

Drawn from Treasury during the year for factories	„ 2,01,465 5 3
Total .	„ 5,35,825 14 6
Add cash profits	„ 75,319 2 3
Total ..	„ 6,11,145 0 9

In addition to the cash profit of Rs.75,319-2-3 should be added the profit by Receipt Transfer Income of Rs. 82,110-7-0 giving a total profit of Rs. 1,57,429-9-3.

Taking the gross expenditure of Rs. 5,89,286-4-9 and deducting the Rs. 2,01,465-5-3 spent on factories, and Rs. 27,041-13-5 on Jail buildings we get a sum of Rs. 3,60,779-2-1 as the real expenditure connected with the up-keep of prisoners. The profit amounting to Rs. 1,57,429-9-3, as shown above, has accrued to Government by the employment of prisoners. After this profit is deducted from the maintenance charges a sum of Rs. 2,03,349-8-10 is left as the net cost to Government for the up-keep of the Jails during the year 1326 Fasli.

18. The dietary charges are naturally higher than last year owing to Statements Nos. 15 and 16 the larger Jail population, the figure Rs. 1,30,923-7-5 of last year rising to Rs. 1,36,306-0-7 this year. The average cost per head however was Rs. 41-15-0 against Rs. 41-5-2 in 1325 Fasli. The higher rate per head is due to the increase in cost of food grain. That the increase is not greater is not explained by any Superintendent though the rates for Jawari, the staple food fell from an average of 13 seers 9 chataks per rupee to 11 seers 8 chataks only. This would appear to be the result of judicious purchase early in the year when rates were lower.

The savings under 'Kasrat,' or difference between bazaar weight of foodstuffs and the Jail weighments amounted to Rs. 9,481-13-4.

19. The total charges under this head have increased from Rs. 8,849-11-1 to Rs. 12,403-15-0, or by Rs. 3,554-3-11 and the Statement No. 17. Clothing and bedding. cost per head from Rs. 2-12-8 to Rs. 3-13-0. The increase being due to higher rates charged for cotton yarns, and to a greater extent to the three yearly distribution of new blankets to prisoners.

20. Gardens attached to the Jails produced vegetables of the total value of Rs. 9,344-11-1 against Rs. 8,799-2-3 last Statement No. 18. Jail Gardens. year, or an increase of Rs. 545-8-10. The garden attached to the Hyderabad Jail is too small for the needs of the Jail, and the present Superintendent, Mr. Mustahsan Khan, is growing vegetables on other spare lands belonging to the Jail and it is hoped the expenditure incurred in purchasing vegetables from the bazaar for this Jail will be considerably reduced in future. Warangal, Nizamabad and Aurangabad produced vegetables sufficient for their own requirements and purchased no vegetables from the bazaar. Vegetables of the total value of Rs. 1,828-3-3 were sold to the public.

21. As noted in paragraph 16, the Hyderabad Jail Press was reorganized on an extensive scale on the 1st of Ardibehisht 1326 Fasli, and Mr. R. V. Pillai, who has much experience of presses and printing works, was appointed as Superintendent on Rs. 400—600. Other changes in the staff were effected under suggestions made by Mr. T. Fisher with the sanction of Government. In addition to the increase in staff, a large amount of plant and machinery were to be purchased: but owing to the War, the difficulty in importing machinery from England and the consequent rise in prices, progress in this direction has been slow. A sum of Rs. 59,215 was sanctioned by Government, and before the close of the year we purchased:—

One Yusuf Electric Press and one Gladstone Press	Rs. 19,474 12 0
One Double Crown Wharfedale machine and type metal etc.	.	17,593 12 4
Total	<u>37,068 8 4</u>

In addition to the above, Rs. 2,080-2-8 was expended in erecting a motor engine, and Rs. 1,486 on other miscellaneous purchases. The total value of the plant and machinery in the Press at the close of the year was Rs. 76,015-10-6.

The following table shows the actual profit from the Hyderabad Jail Press during the year:—

<i>Debit.</i>			
Supervision	2,453	3 8
Establishment, allowance and overtime	23,129	6 5
Value of convict labour supplied	8,629	11 0
Depreciation on stone and machinery	1,861	9 6
Interest on capital	1,353	4 0
Assumed rental value of Press rooms	1,800	0 0
Stores, papers and binding materials consumed	27,471	11 2
Contingencies and writing materials	..	688	15 10
Service stamps	3,400	0 0
Up-keep of Oil Engine	1,440	9 8
Annual registers and uniform of chaprassis	176	0 0
Cost of raw materials in stock on 1st Azur	2,514	5 7
Value of finished work on 1st Azur	56	13 4
Amount due to the Press on 1st Azur 1326 Fasli	6,558	10 7
Amount due by the Press on 30th Aban	5,269	1 10
Total	<u>86,803</u>	<u>6 7</u>
Profit	5,943	9 1
Total	<u>92,746</u>	<u>15 8</u>

<i>Credit.</i>			
Value of printing work charged (as per adjustment statements or received in cash).	40,243	11 10
Cost of printing <i>Jarida</i> (not received in cash).	32,066	7 0
Postage on gazette and other printed matter sent to Government officers	3,400	0 0
Value of type cast in Jail	2,000	9 7
Cost of raw materials in stock on 30th Aban	3,675	6 3
Amount due to the Press by Government officers on 30th Aban	8,382	5 9
Amount due by the Press on 1st Azur	2,978	7 3
Total	<u>92,746</u>	<u>15 8</u>

The profit amounted to roughly 7 to 8 per cent. on the total cost of Press plant, which is satisfactory for the first year seeing that the larger Press establishment had been in existence only 6 months.

The printing of Government Promissory Notes was also done in the Jail, and was satisfactory.

The income from the other Central Jail Presses is noted below :—

		Income.			Expenditure.		
Gulbarga	...	8,698	11	3	7,408	6	11
Warangal	1,387	9	3	1,530	13	8
Aurangabad	1,380	7	9	558	7	1
Nizamabad	901	6	5	792	4	0
Total	12,368	2	8	10,284	15	8

The cash profit from the Divisional Jail Presses was only Rs. 2,083-3-0 against Rs. 11,535-6-6 last year. The Nizamabad Jail last year had a special order for printing registers of proclaimed offenders which had secured to it an income of Rs. 6,430. The decrease in other Jails was due to an all round increase in cost of printing materials.

PART III.

VITAL STATISTICS.

22. The total admissions to Jail Hospitals during the year were
Statements Nos. 21 and 22 11,906 against 10,436 last year, or an increase of
Admissions to Hospitals 1,470 accounted for by the increased Jail population, the daily average sick being 88·27 against 88·12. The number of deaths fell from 48 to 44, and the rate from 15·1 to 13·5 in spite of an increased Jail population, and an extremely unhealthy year. Although plague was prevalent almost throughout the Dominions, Hyderabad not excepted, not a single case of plague occurred in any of the Jails. Of the total number of prisoners who died during the year 36 were convicts and 8 under-trials.

23. Of the total number of deaths, 3 were due to lung diseases, 3 to dysentery and diarrhoea, 4 to fever, and 2 to scurvy.

24. The total expenditure on the medical establishment excluding
Medical Charges. charge allowances to Civil Surgeons amounted to
 Rs. 15,600-13-3 against Rs. 14,958-11-10 last year, or an increase of Rs. 642-1-5. The total hospital expenditure this year was Rs. 28,216-14-7, showing a slight increase of Rs. 175-10-4 on last year's expenditure of Rs. 28,392-8-11.

The average cost per head was Rs. 321-10-6 against Rs. 320-9-9 last year.

PART IV.

GENERAL.

25. There were 226 lunatics in the asylum at the commencement of
Lunatic Asylum. the year, and 79 fresh admissions (66 males and 13 females) making a total of 305 (249 males and 56 females). Of these, 53 were cured and discharged, 8 were made over by request to their guardians before being cured and 14 died, leaving 230 lunatics at the close of the year. Of these, 185 were males and 45 females. The daily average of lunatics was 227·9 against 221·8 last year.

Of the total admissions 45 were from the city and 34 from the districts. 8 of the lunatics were criminals and 71 non-criminals. Of the 8 criminal lunatics, one was a convict and 7 were under-trials. 34 of the lunatics admitted were Hindus and 45 Muhammadans.

Classified according to previous occupations, 13 were Government servants, 7 private servants, 12 Watandars and cultivators, 4 traders, one mechanic and 42 others.

Seven lunatics were under 20 years of age, 58 between 20 and 40 years, and the remaining 14 between 40 and 60 years of age.

The Medical Officer in his Report ascribes the causes of insanity as follows :—

Privation and starvation	2
Epilepsy	8
Intemperance	9
Narcotics	20
Post Febrile insanity	3
Overstudy	3
Puerperal mania	1
Mental anxiety	4
Senile mania	2
Traumatic injuries	1
Sun stroke	1
Congenital	1
Other bodily afflictions	1
Disease of the nervous system	1

In 22 cases no specific cause could be diagnosed.

Of the 14 lunatics who died during the year 7 died of acute Mania, 4 chronic Mania, 1 chronic dementia, 1 idiocy congenital, and one of epileptic insanity.

The percentage of deaths increased from 2·7 to 6·14. The medical officer attributes the increase in deaths to the fact that most of the lunatics who died were already suffering from the disease which caused their death at the time of their admission to the asylum. The percentage of cases cured shows an improvement, being 23·25 against 17·65 last year. There were 226 admissions into the hospitals against 239 last year. There were 8 lunatics in the hospital at the commencement of the year, making a total of lunatics of 234. Of these, 293 were discharged after recovery, 14 died, and the balance remained in hospital at the close of the year.

The total expenditure on the Lunatic Asylum was Rs. 18,820-4-4 against Rs. 18,764-14-5 last year. The cost per head was slightly less than last year, being Rs. 82-8-8 against Rs. 84-15-4. The daily average strength of lunatics was 227·93 against 221·88 in the preceding year.

The present building of the asylum is utterly unsuited to the requirements. Strenuous efforts have been made to ameliorate the lot of lunatics, and to give them a fair chance of recovery, by getting for them a site or building necessary to any reasonable hope of proper treatment, so far unsuccessfully. Government is sympathetically inclined, but the labour for building a new asylum cannot apparently be found during the War.

26. There were 9 juveniles in the Reformatory at the commencement of the year and two were admitted during the year, making a total of 11. Of these 1 was released on the expiry of sentence, 5 were transferred to Jails for release and 1 escaped, leaving 4 in the Reformatory at the close of the year.

Of the two juveniles admitted during the year, one was sentenced for house-breaking with theft to three years and one month and the other for theft for 4 years. Both the lads were illiterate, one was a Native Christian and the other a Muhammadan. Articles were made of the aggregate value of Rs. 1,609-7-7 against Rs. 1,622-14-4 last year. The daily average of juveniles was only 4·7 against 8 last year. The Reformatory, I regret to say, owing to the Magistracy having failed to realise the benefit of its existence, is losing its utility.

27. There were four lepers in the Asylum at the commencement of the year and 4 were admitted during the year making a total of 8. Of these, 4 were released on expiry of sentence, and the remaining 4 were transferred to the care of Mr. Kerr

of Nizamabad with the sanction of Government. He will be paid Rs. 9 per mensem per leper for their up-keep. A guard has also been given him and the lepers have been kept in his Leper Home at Dichpalli. The Leper Asylum at Jalna therefore practically ceases to exist and the staff concerned has been reduced. All new admissions in future will be immediately sent to Dichpalli.

The total cost of the up-keep of the Reformatory and the Leper Asylum amounted to Rs. 6,645-3-3 against Rs. 7,256-11-10 last year, or a decrease of Rs. 611-8-7 due to the abolition of the Leper Asylum since the middle of the year.

28. The total outlay on construction and repairs of the Jail buildings during the year was Rs. 27,041-13-5. The Aurangabad Jail carried out work of some police buildings on contract and secured a profit of Rs. 2,494-1-4 which was credited to Government.

29. Mr. Hankin has left nothing on record regarding the work of individual members of the Jail Staff, and I have only just taken over, so regret I am unable to make any mention of their individual work myself.

I have the honour to be,

Sir,

Your most obedient servant,

W. A. GAYER,

Offg. Director-General of Jails.

STATEMENT NO. 1 — *A Comparative Summary of Admissions (convicts) to the Jails by Districts during the years 1321 to 1326 Fushli.*
